# Message from the Board of Directors...

'Poornam Ecovision' works in community with the aim to provide one stop solutions to environmental issues through peoples' participation. In last 8 years, various innovative experiments have been taken up by Poornam to offer solutions to environmental problems.

2019 was the milestone year when 'Poornam' spread its wings and created a mark outside Pune Municipal Area. With the local level support, we could develop projects in Pimpri Chinchwad, Phaltan and Waluj MIDC (Aurangabad). 'Poornam' has established medium scale projects of waste management at these locations.

Collection and treatment of 30 TPD Non-Hazardous waste from residential and industrial area of Waluj MIDC project, was successfully operated by 'Poornam' in association with Mahindra Waste to Energy Solutions Pvt. Ltd. The project was first of its kind in MIDC region in Maharashtra. We have reached to 1400+ industrial units and 30000 households for waste collection through this project.

In Phaltan, we have empowered local women SHG for manufacturing of sanitary napkin and made them available to villagers at very low cost as compared to other brands of sanitary napkins, with the help of Cummins India CSR.

Together-with these new projects, "Poornam" continued to work on its flagship projects, 'E-waste and Plastic waste management' and 'Fabric Upcycling' and continues to grow its spread across Pune. The concept of E-waste and Plastic waste management has now cultivated among Pune citizens.

We could involve around 250 'Poornahuti' Donors who have donated Rs. 1/- per day for the cause of environmental sustainability, which together could raise more than Rs. 2.0 Lakhs for various environmental projects.

Coming year, we are planning to focus on participation of lay persons in Fabric projects through various new schemes and innovations.

We sincerely thank our Donors, Corporate partners, well-wishers, volunteers and project beneficiaries. With their support this years' reach of 'Poornam' Activities was possible. Their participation made us proud and inspire to work tirelessly.

Thank you...

Board of Directors

# Milestones

2012

Organization established

2013

Cloth and E-waste collection  
5 tons each.  
Association with 25 women

2014

SNDP project kick-off.  
Registered as Sec 8 company.

2015

Started Refurbishment of E-Waste  
Started School and GC projects

2016

Mega drive for E-Waste collection at 300 centers in Pune.  
115 refurbished computers donated

2017

10 permanent  
E-waste collection  
centers established.

2018

Started Rural Waste Management  
Started projects in PCMC, Chakan and Phaltan  
PPP model of SNDP

2019

Waste Management at Waluj  
MIDC, with Mahindra waste  
to energy solution.

2020

COVID-19 Relief Work by  
Manufacturing Reusable  
100% Cotton Masks

# Poornam's activities and SDG coverage

## E-waste and Plastic Management

## Fabric Waste Management

## Green Consultancy

## Sanitary napkin Disposal

## School Awareness

## Over all SDGs covered

# Vision-Mission-Objectives

## Vision:

To establish Poornam Ecovision Foundation as a one-stop solution provider for sustainable development.

## Mission:

- Designing and promoting waste management practices
- Providing research and development services in the field of sustainable development
- Initiating and accelerating community participation in the field of sanitation, agriculture, renewable energy and livelihood

In last 8 years, many activities have been carried out in various sections of society. These range from awareness to training, as well as from celebrating special days to donating various resources to many needy persons/organizations. Details of activities are as follows:

# Projects run by Poornam

## E-waste and Plastic Waste Management

- Awareness about type of waste and waste management
- Establish system for waste collection and transport
- Channelize waste to authorized and scientific recyclers.

## Fabric Waste Management

- Donation of fabric to needy people
- Design upcycled products
- Train SHGs for manufacturing upcycled products.

## Sanitary Napkin Disposal Project

- Awareness among users for separate collection
- Establish collection and disposal system at community level.

## School Connect

- Involvement of students in various environmental programs with hands on experience.
- Green school campus
- Green Audits of school.

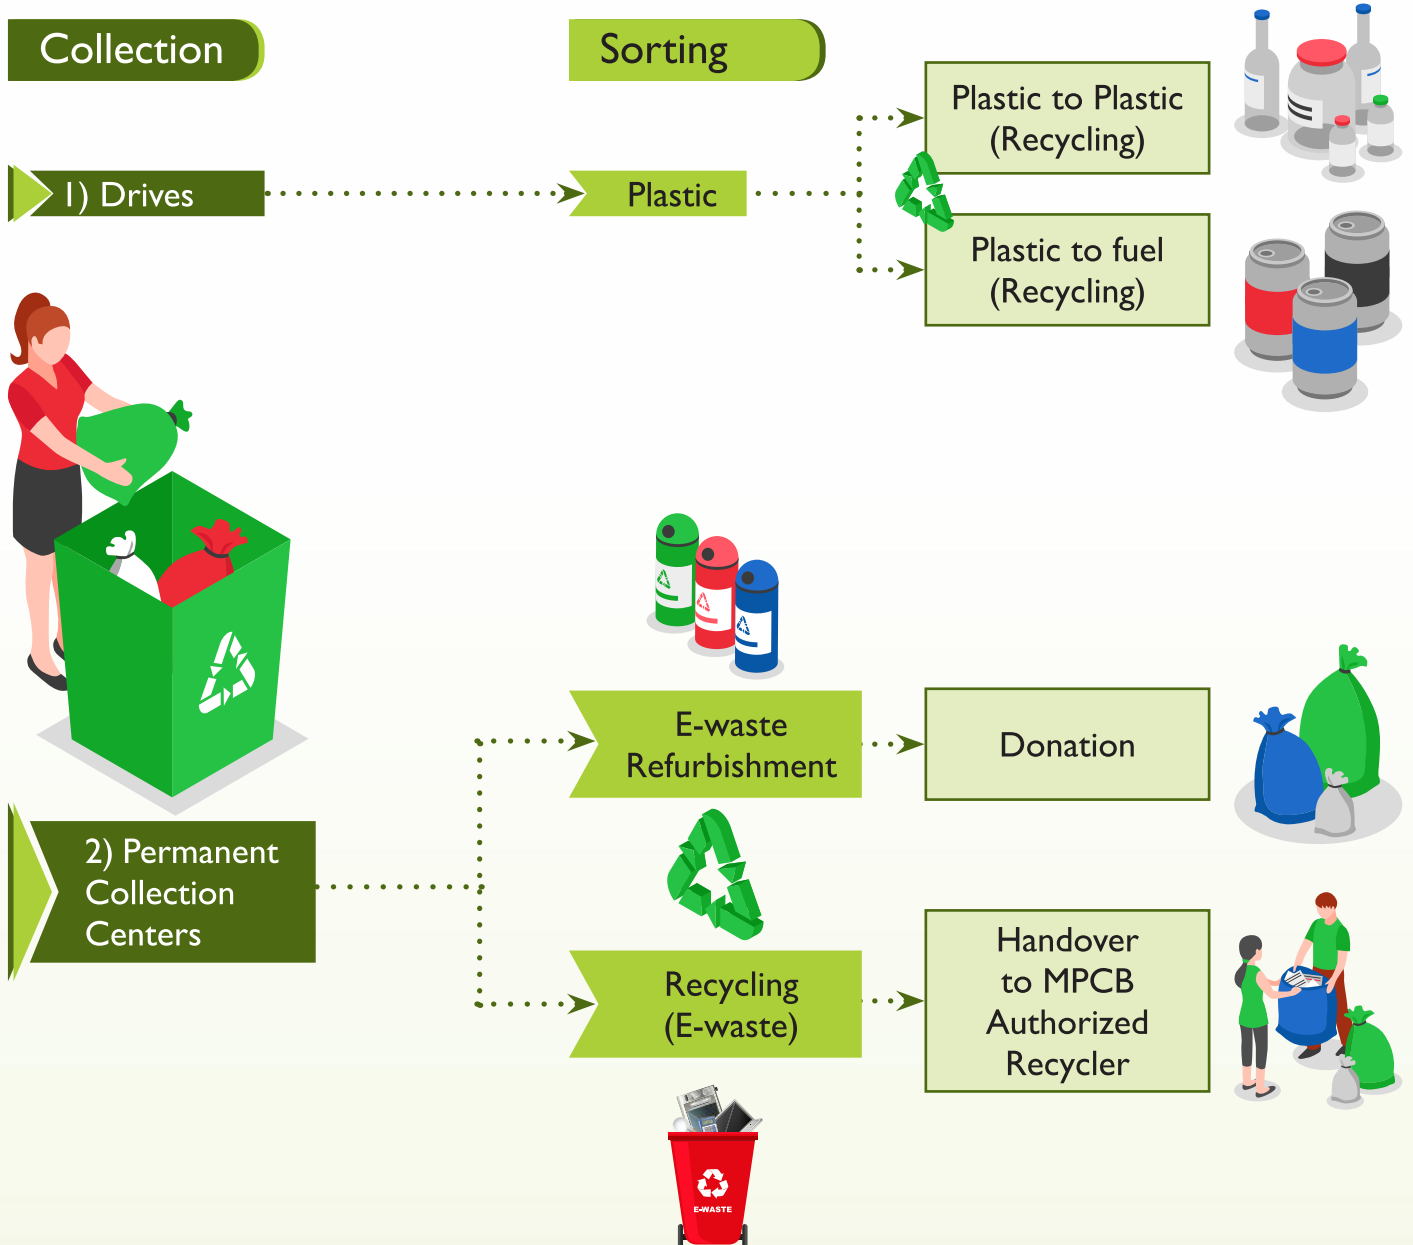

## Colony Connect (Green Consultancy)

- Zero Waste campus concept for residential colonies
- Rain water harvesting
- Community Waste management (Rural, Waluj)

# E-Waste and Plastic Waste Management

## E-waste & Plastic Waste Management Project

This project was supported by Cummins India Foundation and PMC

E-waste & Plastic Waste Collection Megadrive

Palghar District

## Feedback

”

We are connected with Poornam Ecovision Foundation as part of our E-waste & Plastic waste donation projects. We found that Poornam is a very process oriented NGO. They have proper communication channels, reporting structure and a technically sound and science-based team. All of Poornam's employees are well trained, good at communicating and have a 'Can do' attitude. Their response is quick. In addition to E-waste & plastic waste, they have deep expertise in the area of Solid Waste Management. Our project of 'Re-Cycle' i. e. donation of cycle was well handled by the Poornam Team and we donated 80+ cycles to needy students. We wish the Poornam team all the best for all their future endeavors.

पूर्णमशी माझा संबंध साधारण चार वर्षांपूर्वी आला. एका प्रदर्शनामध्ये माझी राजेशर्जाबरोबर ओळख झाली आणि त्यांचे काम आणि जिद्द बघून असे ठरवले की आपण सुद्धा त्यांच्या कामात सहभागी व्हायचे. प्लास्टिक आणि **E-waste center** सुरु करायचे. त्याप्रमाणे आमच्या सोसायटी मध्ये एक केंद्र सुरु केले. आसपासच्या सोसायटीमध्ये पत्रके वाटणे, माहिती देणे सुरु केले. आज अखेर आनंदनगर, महागणेश कॉलनी, शेफालिका सोसायटी, फूड्स कॉर्नर अशी केंद्रे सुरु झाली आहेत. पूर्णमशी काम करताना एक समाधान मिळते की ढासळत्या पर्यावरणासाठी आपण काही तरी वाटा उचलू शकतो. अनेक नवीन ओळखी झाल्या, नवनवीन कल्पनांची ओळख झाली. पूर्णम बरोबर हा प्रवास असाच सुरु राहावा हीच इच्छा.

**- श्री. सुधीर तळवलकर, स्वयंसेवक, पूर्णम इकोव्हिजन फाऊंडेशन**

“

”

Poornam is working on the MUST HAVE social initiative of garbage sorting and management. We work with Poornam as an organization and they arrange once in a month pick up for plastic and e-waste for us. Poornam has conviction and dedication for these drives and we are proud of our participation in the initiatives Let me know if this is good.

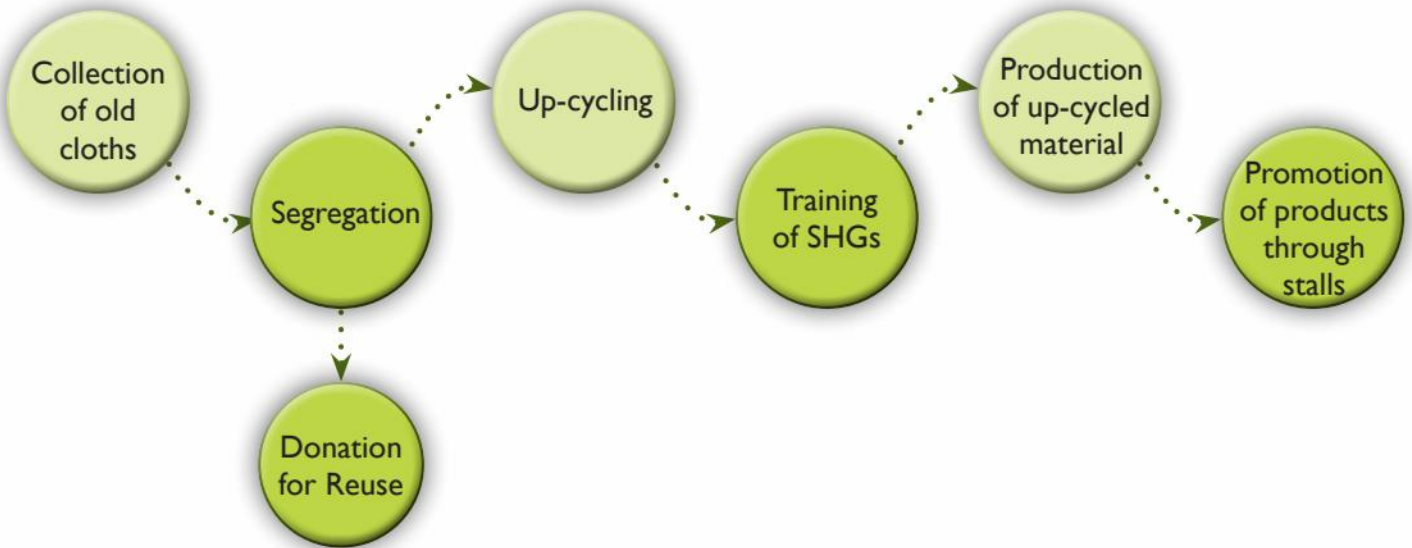

**- Swati Kulkarni, Tranzevo**

”

पूर्णम इकोव्हीजनची संकल्पनाच खूप छान वाटली. जीन्सपासून वेगळ्या बॅग, पर्स हे बघूनच घ्याव्याशा वाटतात आणि जुने कपडे न फेकल्याचं समाधान होतं, त्यावर वारली चित्र रेखाटताना मला फारच आनंद झाला, त्या निमित्ताने वारली चित्र अधिक लोकांपर्यंत पोहोचली, अनुभव एकूणच छान होता. यापुढेही पूर्णमसोबत काम करत राहायला आवडेल. अनेक शुभेच्छा.  
धन्यवाद!

- **श्रद्धा कराळे, वारली चित्रकार**

”

”

लॉकडाऊन मध्ये मला मास्कचे काम मिळाले. मास्क बनविण्यासाठीचे मटेरियल घरपोच आणून दिले जात होते. मला व माझ्या परिवाराला आर्थिक आधार मिळाला.  
संस्थेचे खूप आभार!

- **पूनम कौर, बचतगट महिला, शिवणे**

”

”

प्रथम पूर्णम संस्थेचे मनापासून आभार! कोव्हीड-१९ च्या काळात परिस्थिती अतिशय बिकट होती आणि त्याच वेळी आम्हाला मास्क शिवण्याचे काम मिळाले. त्यामुळे आमच्यासारख्या बऱ्याच महिलांना रोजगार मिळाला. यापुढेही आम्ही या संस्थेसोबत काम करण्यास नेहमी इच्छुक असू.

उद्गम प्रकल्पामध्ये गेली दीड वर्षे काम करते आहे. खरं पाहता आत्तापर्यंत चूल आणि मूल या संकल्पनेत गुरफटलेली होते. कधी वाटलेच नाही की या सगळ्यातून बाहेर पडून अश्या क्षेत्रात काम करण्याची संधी मला मिळेल. या प्रकल्पामुळे माझ्या आयुष्याला वेगळे वळण लागले. मी एक महिला असून महिलांच्या आरोग्याच्या दृष्टीकोनातून सॅनिटरी नॅपकीनच्या प्रकल्पामध्ये काम करित आहे याचा मला अभिमान वाटतो.

- पल्लवी नितीन अनपट, बचतगट महिला, झंझणे-सासवड

“

”

मी गेली १. ५ वर्षे उद्गम सॅनिटरी नॅपकीन बनविण्याच्या प्रकल्पामध्ये काम करित आहे. नॅपकीन कसा तयार होतो याची कल्पना सुद्धा नव्हती. पण आता खूप चांगल्या पद्धतीने आम्ही महिला बचत गटाच्या माध्यमातून नॅपकीन बनविण्याचे काम करतो. महिलांचा चांगला प्रतिसाद आम्हाला मिळत आहे. या प्रकल्पामुळे मी स्वतःच्या पायावर उभी राहून माझ्या आर्थिक समस्या सोडविण्यात आणि आर्थिक बाबीत निर्णय घेण्यास सक्षम झाले आहे. गावातील ७०% महिला आता कापड न वापरता सॅनिटरी नॅपकीन आमच्याकडून घेऊन वापरतात.

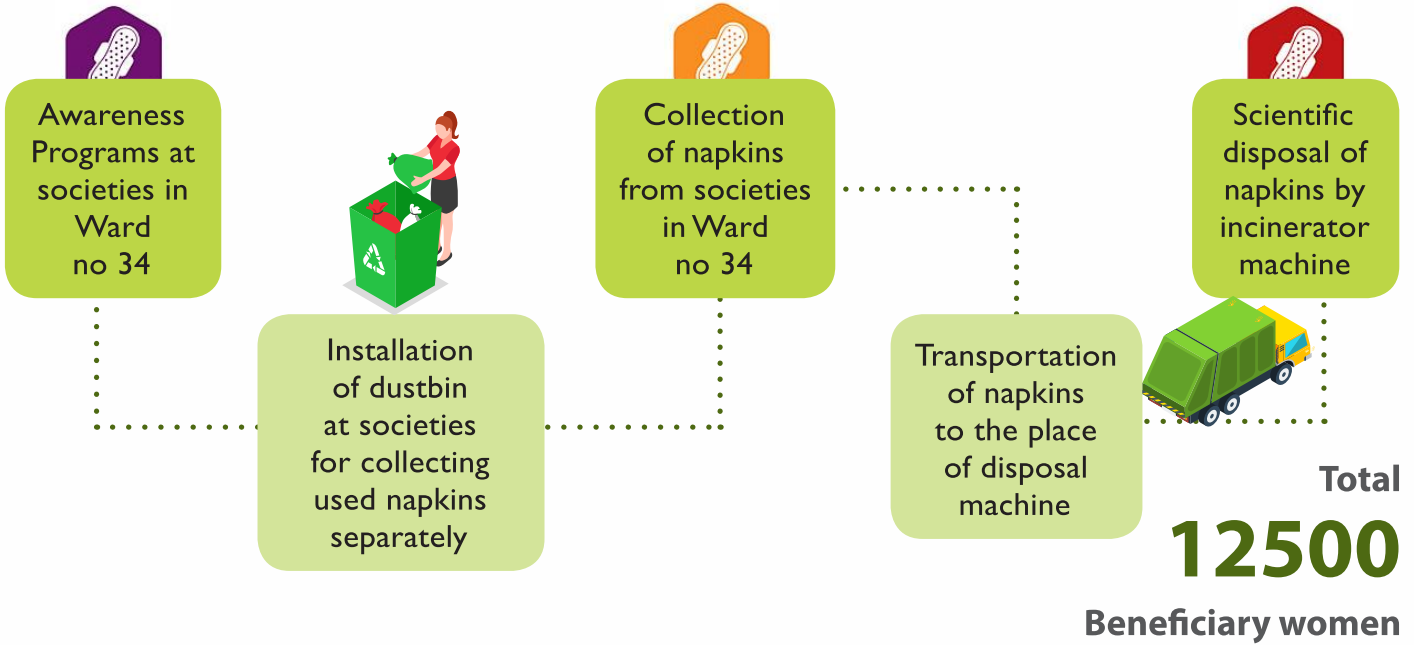

- तेजश्री प्रदीप जगताप, बचतगट महिला, झंझणे-सासवड

Awareness Program at Society in ward no. 34

Disposal of napkins in incinerator

In Pune, water crisis and solid waste management problems are increasing day by day. Still, people are not much aware about the solutions we can look up to solve these problems. Rain Water Harvesting and Wet Waste Composting are the techniques used worldwide to deal with these situations. To sort out these problems, PEF has established Green consultancy, a permanent Counseling Center which provides services for query addressal, installation, and maintenance for Organic Waste Composting, Solid Waste Management and Rain Water Harvesting. We are working at Society level and Township.

## Rain Water Harvesting:

PoornamEcovision Foundation helps in setting up rainwater harvesting systems. The worksite is examined first. Suitable RWH system is suggested as per the requirement- Rooftop Rain Water Harvesting or Catchment Rain Water Harvesting. Pros and cons of the system are discussed with residents and after their approval, project proceeds.

As of now, we have established two such systems, one in Yajurved Society. , Karvenagar and one in Laxmi Park Society. , NaviPeth. The filters used are manufactured by Rainy filters, based in Mangalore. They are simple yet effective and require minimal maintenance.

## Composting:

Similar to the RWH system installation process, first step in Composting unit installation is examining how much waste the society produces every day. Taking into consideration the space required for composting pits and the structure of building, units are designed. After the approval, construction starts.

At present, 4 societies are successfully running their own composting units with the technical support of Poornam.

आनंदक्षण (लर्निंग स्पेस) ही संस्था २०१३ साली सुरु झाली. मुलांचे शिकणे हे आनंददायी, प्रयोगशील, कृतिशील असावे असा मुख्य उद्देश. तसेच आनंदक्षण दर वर्षी गट १ ते १० या वयोगटातील मुलांसाठी एका प्रकल्पाचे नियोजन करते, ज्यात शक्यतो सर्व विषयांचा समावेश असेल. अशाच एका प्रकल्पाच्या माध्यमातून पूर्णम इकोव्हिजन फाऊंडेशन या संस्थेची ओळख झाली. प्रकल्पाचे काम सुरु असतांना आपल्या मुलांमध्ये ही जागरूकता यावी म्हणून आनंदक्षण ही वेगवेगळे प्रयोग करत होते. फेब्रुवारी २०२० या वर्षी, पूर्णम इकोव्हिजन फाऊंडेशन आणि कमिन्स यांच्या संयुक्त विद्यमाने एक प्रयोग राबवण्यात आला ज्यात आनंदक्षणला सहभागी होता आले. शाळाशाळांमधून जी स्पर्धा घडवून आणायची होती ती आमच्या इथेही झाली. हे काम साकारताना, पूर्णम इकोव्हिजन फाऊंडेशनमधील स्वयंसेवकाने येऊन मुलांना इ-कचरा यावर मार्गदर्शन केले. मग चित्रकलेची स्पर्धा झाली व शेवटी इ-कचरा पासून बनवलेल्या वस्तूंचे प्रदर्शन व अंतर शालेय स्पर्धा २२ फेब्रुवारीला झाली. अशा उपक्रमामुळे मुलांमध्ये जागरूकता येणे व त्या दृष्टीने विचार करणे व पावले उचलणे हे मार्गदर्शन मिळते. वस्तूंच्या प्रदर्शनातून सर्व मुलांना इतरांचे काम बघण्याची संधी मिळाली तसेच स्वतःचे विचार कृतीत आणता येतात याचा आत्मविश्वास आला. यासाठी पूर्णम इकोव्हिजन फाऊंडेशन आणि कमिन्स यांचे आभार! असे वेगवेगळे प्रयोग दर वर्षी व्हावेत जेणेकरून मुलांमधील सर्जनशीलतेला वाव मिळू शकेल. एक शिक्षिका म्हणून मला असेही वाटते की पुढच्या नियोजनाच्या वेळेस मुलांशी अजून खोल व सखोल संवाद व्हायला हवा. मुलांनी कोणत्या बाबींवर विचार करावा, कोणत्या गोष्टी अवलंबल्या पाहिजेत यासंबंधी दिशादर्शन मिळावे, जेणे करून मुलांकडूनही तितकेच लक्ष केंद्रित करून काम होऊ शकेल. आनंदक्षणला ही संधी दिल्याबद्दल पूर्णम इकोव्हिजन फाऊंडेशन आणि कमिन्स यांचे पुनश्च आभार. !!

- शाल्मली जोशी, आनंदक्षण (लर्निंग स्पेस)

As the head of the school's hygiene department, I am proud to say that, for last three years, we have been participating in various activities organized by Poornam ecovision foundation, Pune. All the three years in our school, students from 5<sup>th</sup> to 12<sup>th</sup> class responded initiatively to "Plastic & E-waste collection". Everyday plastic & e-waste generated at home is collected and brought to the school at the end of each month and immediately handed over to Poornam Ecovision. Students are often instructed to do so, explaining it's benefits. The importance of these things is emphasized everyday during the paripath and you get to experience a very good result. The competition for making "Sustainable items from waste" was also well received by the students. This is a very commendable initiative of 'Poornam'. It is essential to inculcate this culture in the minds of all students at an early age, as it takes time. Just as we store daily newspaper waste in the house separately, we should keep household plastic and E-waste separately and hand it over to such an organisation for proper disposal. Only then it will be possible to live a pollution free life for our future generations. On behalf of Poornam, I got all the best support from the co-teachers of my school Neeta Deshmukh, Radhika Chive, Suyog Kande and other teachers. Also received excellent guidance from Hon'ble Headmistress Vidya Galinde , deputy headmistress and all supervisors.

- Dr Jyoti Mahajan,

H H C P Hightschool and Jr college for girls, Hujurpaga, Laxmi road, Pune 30

# Volunteering Engagement

## Internship program with Symbiosis

Since last 3 years we have been associated with Symbiosis College for engagement of students through internship program. This mutual association is always helpful for students as well as us. Around 80 to 100 students participated last two years. This year participation was 76. Internship program was run in August and September. In October recognition ceremony was held on 19th by us in association with Symbiosis College.

During internship program, intern students worked in all 5 projects run by Poornam. They carried out activity in group of 5 or 6. Their contribution to every project is remarkable. We awarded them with Best performer and best video trophy. All students got certificate of participation on behalf of both Poornam and Symbiosis college. All students worked sincerely and energetically and were happy to be associated with us.

**76** Student Interns attached

**200** Volunteers engaged

## Volunteers & interns are involved in the following activities:

1. Running Weekly E-waste & Plastic Waste Collection Centers
2. Conducting E-waste & Plastic Waste Collection Drives
3. Conducting E-waste Awareness Programs in Schools
4. Volunteering in E-waste & Plastic Collection Mega-drives at Ward Level
5. Product Photography for Fabric Up-cycling
6. Social Media Handling
7. Film making
8. Engagement as Core Committee Member
9. Arrangement of Stalls at Various Exhibitions Around City

”

Collaborating with Poornam Ecovision for 40 hours internship in waste management was an enriching experience for our students of second-year B. Com. For three consecutive years, our Sustainability Management students have been involved in the E-waste and waste management projects undertaken by Poornam Ecovision. Students have been guided to conduct awareness programs and set up E-waste collection centers in different parts of Pune city.

This collaboration has been a success because we can see the transformation in the students' approach. They are now more responsible and concerned about the environment. This internship has been planned, managed, and coordinated excellently by the Poornam Ecovision team. On behalf of Symbiosis College, I am grateful to Dr. Rajesh Manerikar, Mrs. Snehal Waghole, and the team for their wholehearted co-operation.

## Health camp on Occupational hazards for waste workers

There is issue of health hazards of waste workers as they work at high risk of getting infected. Awareness about health hazards among them and their regular check are necessary things which can be done to help them. NSDL Arogya Prakalp, Lahuji Salwe Arogya Kendra, Mahindra Waste to Energy Solutions and Poornam organized Health camp for waste workers at Aurangabad. The camp was organized on 24th November 2019 at Jagrut Hanuman Mandir in Bajaj Nagar at Waluj MIDC. Around 68 waste workers in total from SIDCO (Waluj), Wadgaon (Waluj), Pandharpur near Waluj and Bajaj Nagar (Waluj MIDC) attended the camp. Along with general health check-up tests such as X-ray, PFT and ECG were also carried out.

Health Camp for Waste Workers at Aurangabad

## Foundation Day Celebration

Poornam Ecovision Foundation completed 5 glorious years of success in the field of Environment. We thank all our partners associated with us throughout our journey for a cause. We celebrated this journey by organizing event on Saturday, 23rd November 2019. Event was attended by 150 people who included associates, volunteers, well wishers, advisory committee and Poornam team. Program was started with Panchamahabhoot Poojan by respected guests followed by felicitation of guests. Dr. Rajesh Manerikar, CEO, Poornam Ecovision Foundation illustrated about journey of success in 5 years. On this occasion Poornam organized lecture by Mr. Vidyadhar Walawalkar, who is founder director of "Paryavaran Dakshata Manch", which is an Environmental organization dedicated to Environment Education and Awareness Creation. He guided audience regarding approach towards environmental issues. Chairperson present for the program was Mr. Vidyadhar Purandare, Vice-president, Software Exporters Association of Pune (SEAP) who explained how corporate companies are funding for good cause and how social organizations and corporate can work hand in hand for betterment of society and environment. Founder director of Poornam Mr. Sachin Kulkarni delivered thanks giving speech. The program was held at 5.30pm to 7.30pm at K. B. Joshi institute's hall in Cummins Engineering College for Women, Karvenagar, Pune. Various informative stalls regarding 5 projects run by Poornam were arranged outside hall.

Mr. Manoj Mehta, Mr. Sacheen Kulkarni,  
Mr. Mahesh Karpe, Mr. Krishnan, Mr. Gupta,  
Mrs. Sharayu Pandhare, Mr. Sandeep Kshirsagar

Guest Speaker: Mr. Vidyadhar Walavalkar

## "Best Out of Waste" exhibition

As a part of Awareness Initiatives at school level Poornam conducted competition of making 'Best out of Waste' models. Evaluation of competition was carried out by experts in Cummins and Poornam. Out of 10 schools 101 models were short listed. On 22<sup>nd</sup> February exhibition of these 101 models were organized at Navin Marathi school, Shanivar Peth.

Inauguration of Exhibition

Exhibition of Best Out of Waste items by Students

## Cycle Donation Drive

In association with Cummins India Foundation Poornam Ecovision Foundation organized activity of Cycle collection & donation to the needy rural school children. We cordially conducted Old Bicycle collection drives in Pune City and donated total 94 cycles in rural area of Ahmednagar District. Shiram Vidyalay (Bhimatakli Village), ZP School (Devgaon), ZP School (Manjarsumbha), Shivaji Vidyalay (Dhene, Bhimashankar) and Vasantrav Pawar Vidyalay (Deulgaon, Baramati) were selected schools.
