

-: Our Team :-

Dr. Rajesh Manerikar

PhD in Environmental Science and MBA (CSR & NGO Management). He is NABET-approved EIA Coordinator (Solid Waste Management) and Founder & CEO of Poornam Ecovision Foundation, he brings extensive expertise in environmental assessment and waste management systems. He has led multiple sustainability initiatives focusing on decentralized waste solutions, livelihood generation, and capacity building across educational institutions and communities.

Ms. Anushka Kajbaje

A dedicated environmental educator with 21+ years of experience, she has led nationwide sustainability initiatives, guided 20+ PG dissertations, driven impactful grassroots watershed work, and is a recipient of WINS 2023 and PMC's Swachh Puraskar

Dr. Manvi Singh

Certified Professional in Resource Efficiency from the Confederation of Indian Industry (CII), India, she serves as a Green Auditor for educational institutions, conducting comprehensive environmental and Swachhta assessments. She specializes in evaluating resource efficiency, waste management systems, and sustainability practices at the institutional level. With experience aligned to NEP frameworks, she has contributed to the development of sustainability-focused learning modules, led capacity-building programs for educators, and supported institutions in implementing structured, behaviour-driven environmental initiatives.

We do not just audit—we enable institutions to implement and sustain change.

POORNAM ECOVISION FOUNDATION PUNE

**Green Audit & Swachhta
Assessment Services
for Educational Institutions & Corporate Offices**

Poornam Ecovision Foundation supports educational institutions and individual organisations in transforming their campuses into environmentally responsible, resource-efficient, and student-driven sustainability models.

Our Green Audit & Swachhta Assessment Services provide a structured approach to evaluate, improve, and implement sustainable practices within educational institutions and corporate offices.

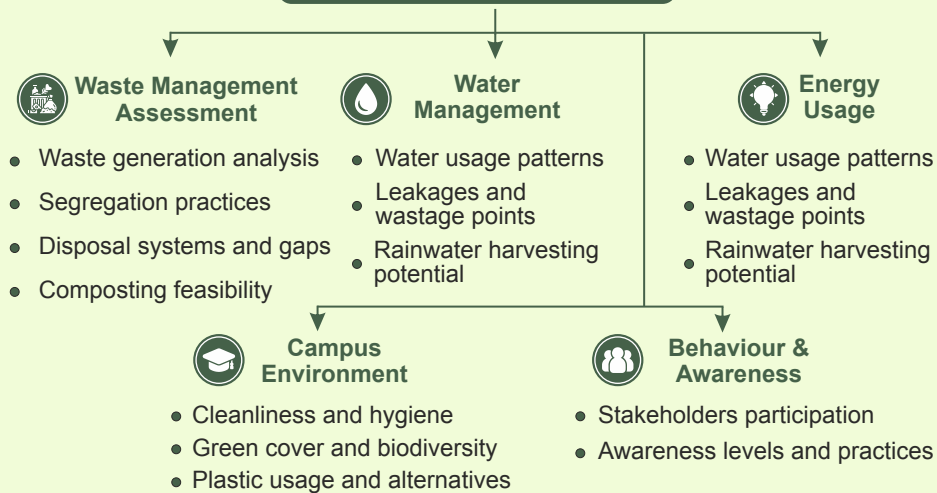

Why Green Audit?

Organizations and institutions play a critical role in driving sustainable practices and behavioural change. A Green Audit enables them to:

- Assess current environmental performance and practices.
- Identify gaps in waste, water, and energy management systems.
- Improve resource efficiency and reduce operational impact.
- Align with national environmental regulations, ESG, and Swachhta goals
- Strengthen organizational responsibility and environmental leadership.
